

“I can do all things through Christ who strengthens me” – Philippians 4:13

I believe these words to be true, but to be honest, the last few months have been a difficult season where I have sometimes found this statement hard to hold on to. At times I have felt overwhelmed, weak, ill equipped, and frustrated.

Would you pray for me that during these difficult moments and seasons I would be filled with the Holy Spirit, and the wisdom and strength He gives.

Would you pray for our youth that God would soften their hearts to pursue Him, and good relationships with others. That when we are together they would know the love that God has for them through their interactions with us.

PRAYER REQUESTS

- Wisdom on how to work through behavioural issues and conflicts with youth
- Additional member(s) to join our team to expand our scope of ministry
- Continued financial/in kind donations making our ministry possible
- Rest, peace and healing for my heart and mind

TIME OF GROWTH

January brought with it some travel and time away from programs for me. First we had our YFC Regional Retreat in Manitoba where we were able to connect with other YFC staff as well as receive encouragement and training. I was invited to join the Young Leaders Advisory Board which exists to engage the voices, vision, goals, and objectives of the under 35 staff within YFC Canada. It is such a privilege to join this think tank of like-minded leaders not only because we are given the opportunity to speak directly into the organization at a national level, but because I also feel that I am being personally invested in through this opportunity. In January we met in Ontario as a board alongside several national staff to make plans for how to continue improving our organization.
